

## Daddis Fight Camp COMMERCIAL

### THE DETAILS

Project: Daddis Fight Camp  
Location: Charry Hill, NJ  
Size: 6,950 square feet  
Completed: 2012

### THE PROJECT

The expanding martial arts school not only needed a larger space for their mixed martial arts academy, they also were expanding into providing crossfit classes. The main training area was split up by the boxing ring and martial arts cage with the martial arts mats and boxing bags in the front of the space, and the crossfit training areas and weights in the back. The front area also has a physical therapy and treatment area with locker rooms and staff offices.
